In addition to the tap fee, new connections to the sewage system of the Town of Waynesville shall pay a sewer capacity fee based on wastewater design flow rate determined from the table of minimum allowable design daily flow in 15A NCAC, 02T.0114 of the Environmental Management regulations contained in the North Carolina Administrative Code. For the tributary sewer systems of Junaluska Sanitary District, Town of Clyde or Maggie Valley, wastewater flow allocation letters will be charged the sewer capacity fee at the outside rate. Lake Junaluska Assembly will be charged the sewer capacity fee for flow allocation letters at the inside rate (in consideration of their participation between 1942 and 1990 in the costs of sewer trunk and treatment plant facilities). The minimum flow rate is 240 GPD. It is the policy of the Town of Waynesville to establish a schedule of "System Development Fees in accordance with Article 8 of Chapter 162 of the North Carolina General Statutes. The fees are intended to defray the cost of the water and sewer infrastructure as calculated in a report by McGill Associates dated March, 2018 and titled "Cost-Justified Water ands Wastewater System Development Fees Report". *Equivalent flow rates will be per the North Carolina Administrative Code 15A: NCAC 18C.0409 and NCAC 02T.0114 (Authority NCGS 130A-315; 103A-317)

Renewable Energy and Efficiency Portfolio Standards (REPS)		
In 2007, the North Carolina General Assembly passed legislation that requires ut	ility companies to develop an	
increasing supply of alternative energy resources, with 3% of their total supply c		
12% from renewable by 2021. Utility companies are charging their customers to		
energy they purchase. In turn the Town is passing along these costs to its custo		
each December by our power supplier.
